Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

This statement is filed in the application identified above pursuant
to 37 C.F.R. § 1.56. No representation is intended that a complete search has been made of the
prior art or that no better art references than those listed on the attached PTO Form 1449 are
available. The filing of this Statement shall not be construed to be an admission that the
information cited in the Statement is, or is considered to be, material to patentability as defined
in § 1.56(b).

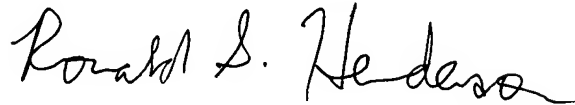

Copies of the two cited references are attached. These same two references were cited in an Information Disclosure Statement filed by us on March 29, 2004, but copies were not available at that time.

These two references are not believed to disclose or suggest the invention recited in the claims of the above-identified application. It is therefore believed that the claimed invention is patentably distinguishable over these references.

Please charge any fees that might be due in connection with this Information Disclosure Statement to Barnes & Thornburg Deposit Account No. 10-0435, with reference to our matter number 7175-74147.

Respectfully submitted,
